Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

10/039,578

Applicant(s)

LEE, THOMAS PING HUA

Examiner

Josiah Cocks

Art Unit

3749

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 October 2001.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-8 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 1-6 is/are allowed.
- 6) ☒ Claim(s) 7 and 8 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☒ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)
Paper No(s)/Mail Date _____
- 4) ☐ Interview Summary (PTO-413)
Paper No(s)/Mail Date. _____
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: _____

DETAILED ACTION

Reissue Applications

1. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 5,971,751 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

Response to Preliminary Amendment

2. The preliminary amendment filed on 10/26/01 under 37 CFR 1.173 adding claims 7 and 8 is acknowledged.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 7 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over *Buck* (US # 4,850,854) in view of *Mohr* (US # 3,984,738)

Buck discloses in Figure 3 a piezoelectric lighter substantially as described in applicant's claims 7 and 8 including a fuel tank (82), a gas ejecting tip (93) communicating with the fuel tank, a piezoelectric unit (92) having an ignition tip (78) connected thereto capable of producing a spark to ignite fuel released from the gas ejecting tip, and a thumb push cap (86) capable of activating the piezoelectric unit. *Buck* further discloses a pressure absorbing device (unnumbered spring to the right of pivot 84 in Fig. 3) that is positioned to engage an underside of the thumb push cap to impede movement of the cap and provide an upward force that would be additional to any upward force provided by the piezoelectric unit.

In regard to the limitation that the piezoelectric unit includes a mechanism for providing an upward force for urging the thumb push cap into an upper normal position, it is inherent that the plunger (91) of piezoelectric unit (92) of *Buck* would be urged upward by a mechanism internal to the piezoelectric unit as such a mechanism is necessary for the operation of the unit. *Mohr* is cited simply to provide a description of the structure and operation of a piezoelectric unit that is identical to the piezoelectric unit of *Buck*. Referring to *Mohr*, as is well understood the piezoelectric unit of a lighter includes an internal spring (111) that applies an upward returning force to plunger/actuating member (114) once the plunger/actuating member has been depressed to produce a spark (see *Mohr*, col. 3, lines 17-39).

Allowable Subject Matter

5. Claims 1-6 are allowed.

6. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest the piezoelectric unit having the structure recited in applicant's claims 1-6 including a pressure absorbing device that is held vertically between the thumb-push cap and the ceiling of the casing and is formed of a cylindrical rubber post and a coaxial elastic spring where this pressure absorbing is rigidly held to an interior surface of the thumb cap by a holding means and is supported by a receiving means located a cavity of the cap.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. This action is made non-final. A THREE month shortened statutory period for reply has been set. Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) months from the mailing date of this communication.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. *Zellweger et al.*, *Frigiere*, *Ichikawa*, GB 1 435 657 and GB 1 404 381 are included to

Art Unit: 3749

further show the state of the art concerning lighter structure. *Yeh* and *Chen* are included to show the state of the art concerning lighters including a pressure absorbing device in the form of a rubber post.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Josiah Cocks whose telephone number is (703) 305-0450. The examiner can normally be reached on weekdays from 7:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ira Lazarus, can be reached at (703) 308-1935. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0861.
